

What do you need to prepare to host a festival?

Festival Project

Learning Objectives

- Understand the project brief and expectations
- Identify a target audience
- Create a moodboard that communicates a clear theme

9L GClass code: kiqkwt5y

Project Brief

You are a graphic designer. You have been asked to develop promotional merchandise for a popular festival. This merchandise will include, posters, badges, logos, t-shirts, wristbands etc.

During the project you will develop a wide range of technology skills including:

- Typography
- Graphic design
- Marketing
- Branding
- Design development

You will be selecting the theme/name of your festival. This will include events, entertainment and more.

You'll be designing and making...

- ★ Tickets
- ★ TShirt Merch
- ★ Posters
- ★ Badge

Festival theme ideas:

- Music festival
- Gaming festival
- Film festival
- Food and drink festival

DESIGN & TECHNOLOGY T3
FESTIVAL PROJECT
YOUR NAME:

Consider this
example
moodboard

What is the
concept of this
event?

What might the
target audience
for this event be?

How would you
describe the
design intent of
this event?

- Understand the project brief and expectations
- Identify a target audience
- Create a moodboard that communicates a clear theme

Research some ideas for your festival. Use these prompt questions to help you...

1. What type of festival are you organising?
2. What kind of events could be at your festival?
3. Will there be entertainment? What kind?
4. What merchandise will be sold at your festival?
5. What colour scheme will you have for your festival?
6. What kind of customer will attend your festival?

Use your research to create a mood board for your festival. This should give an overall atmosphere of your festival ideas. You should include images and text.

I WANT TO CREATE A FESTIVAL THAT COMBINES EMOTIONAL NOSTALGIA WITH PLAYFUL, MODERN VISUALS TO APPEAL TO ADULTS RECONNECTING WITH THEIR YOUTH.

[illegible]

POSTER ARTWORK BY ELLA ZHENG

PRESENTED BY

LASALLE
COLLEGE OF THE ARTS

What makes a poster well designed?

What makes a poster poorly designed?

PRINCETON HAM RADIO CLUB AND CALDWELL CO ARES

Learning Objectives

- To experiment with different font styles and layouts
- To design a clear and appropriate festival logo
- To create a visually effective promotional poster

Task:

Design an **informative and aesthetic** poster for your festival.

- Consider your entertainment, aesthetic, customer, events,.
- Include a **festival Logo** that can be **consistent** throughout your promotional items.

Your poster must have...?

???

???

???

???

???

RINO ART DISTRICT, DENVER

EARLY-BIRD 3-DAY PASSES

ON SALE FRIDAY, MARCH 16 AT 10am

GLASS ANIMALS **COLD WAR KIDS**

VINCE STAPLES | MATT AND KIM

RAINBOW KITTEN SURPRISE

THE KILLS & MORE

CELEBRATION OF MUSIC & CYCLING – BREWS – FOOD TRUCKS – RACES & EVENTS – AND MUCH MORE

VeloramaFestival.com

Learning Objectives

- To experiment with different font styles and layouts
- To design a clear and appropriate festival logo
- To create a visually effective promotional poster

Your poster must have...

The **title** of your festival

A clear and thematic **logo**

How attendees can get **tickets**.

Appropriate **aesthetics/decorations** for visual appeal

Information and images about what the festival will feature (ie: **music, games, food, featured guests** etc)

Unique design details (do **NOT** just use a **default canva template**)

You can also include:

- Time and location
- Appropriate sponsors
- Any special events that will draw attendee's attention
- Competitions or lucky draws

Learning Objectives

- To design a ticket with required information
- To apply branding consistently to a smaller format

Think, Pair, Share

What should be included on a ticket for a festival?
Why?

Event Name & Logo:

Clear branding to identify the specific festival.

Venue Details:

The full name and physical address of the festival location.

Ticket Tier & Access Rights:

Explicit labeling of the ticket class (e.g., General Admission, VIP, or a specific 1-day/3-day pass) and any special perks.

Unique Identifier:

A QR code or barcode, that links to the original booking and can be securely scanned for authentication.

Security Features: Anti-counterfeiting measures like holograms, watermarks, or randomised numbers.

Date & Time: Exact event dates, gate opening hours, and performance times.

Learning Objectives

- To design a ticket with required information
- To apply branding consistently to a smaller format

Task:

To design a ticket for your festival. Your ticket must include:

- Your brand identity (visually)
- Barcode/QR
- Price
- Ticket Tier
- Venue
- Date/Time
- Event Name & Logo

Stretch:

Create tickets for different access tiers, include wristband/lanyard or other alternative ticket designs.

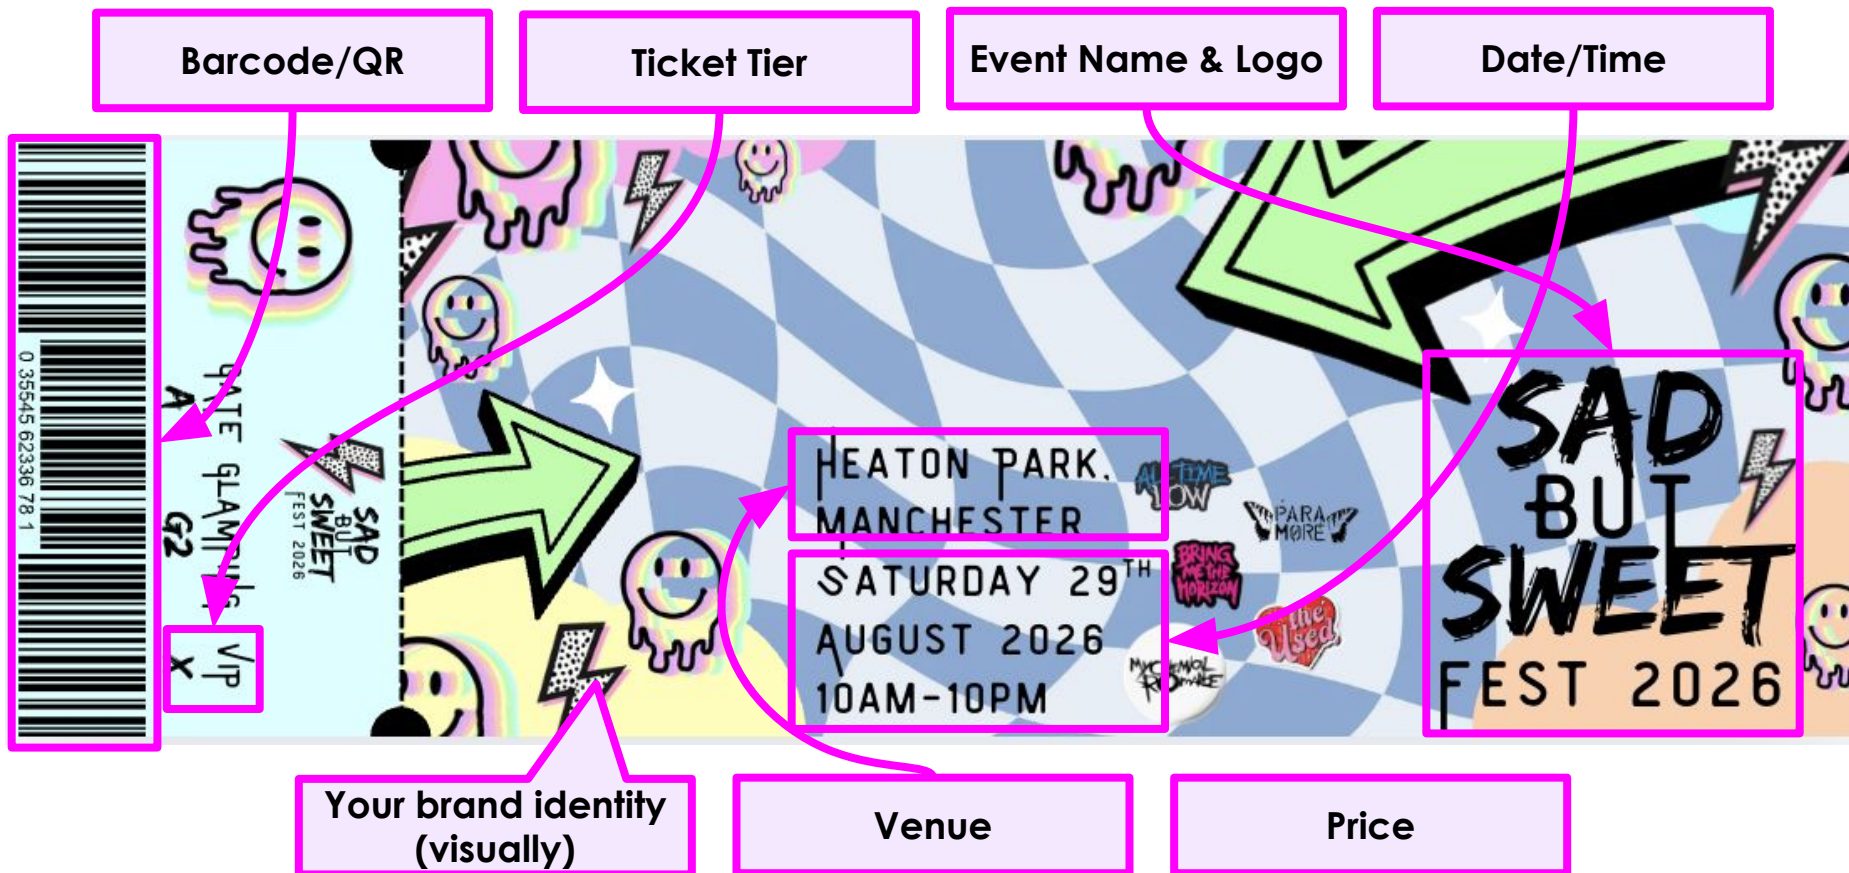

Learning Objectives

- To design a ticket with required information
- To apply branding consistently to a smaller format

Learning Objectives

- To design a ticket with required information
- To apply branding consistently to a smaller format

- Learning Objectives
- To review all the work completed so far.
 - To use WWW/EBI to self assess work.

Done?  / 	Slides/pages in your coursework
	Page 1: Title page with name, class and teacher's name
	Page 2: Festival project mood board
	Page 3: Festival Poster with ACCESSFM annotation
	Page 4: Festival Ticket with ACCESSFM annotation

	Foundation	Developing	Secure	Excellence
Project Check In	Many of my pages are incomplete and missing important information.	I have most pages complete and there are some good details and decorations in my work.	I have completed all pages of my coursework and included high quality details and decorations. My coursework is aesthetically pleasing	I have completed all pages and provided clear details and images about my project. The theme of my coursework matches my ideas.
1) What level am I working at?				
2) What did I do well?				
3) What areas could I improve?				
4) What can I add or change right now to improve my work?

Teacher Feedback

WWW:

EBI:

Predicted Grade:

ACCESSFM

	A	Aesthetics	Aesthetics means what does the product look like? What is the Colour? Shape? Texture? Pattern? Appearance? Feel? Weight? Style?
	C	Cost	Cost means how much does the product cost to buy? How much does the product cost to make? How much do the different materials cost? Is it worth it?
	C	Client	Client /Customer/User means who will buy your product? What is their Age? Gender? Income? Lifestyle? User needs? Likes/Dislikes? Needs? Preferences?
	E	Environment	Environment means will the product affect the environment? Is the product; recyclable? Reusable? Repairable? Sustainable? Environmentally friendly? BAAd for the environment? 6R's of design: Recycle, Reuse, Repair, Rethink, Reduce, Refuse.
	S	Size	Size means how big or small the product is. What is the size of the product in millimeters (mm)? Is the size similar to other products on the market? Is it comfortable to use? Does it fit? Would it be improved if it was bigger or smaller?
	S	Safety	Safety means how safe is the product when it is in use? Will it be safe for the customer to use? Could they hurt themselves? What is the correct and safest way to use the product?
	F	Function	Function means how does the product work? What is the product's job and role? What is it needed for? How well does it work? How could it be improved? Why is it used this way?
	M	Materials	Materials means what is the product made from? Why were these materials used? Would a different material be better? How was the product made? What manufacturing techniques were used?

Learning Objectives

- To apply branding consistently across multiple products
- To create functional and visually appropriate merchandise

Think:

- Why do people buy festival merchandise?
- What does it do beyond just being a product?

Pair:

- Why is merchandise important to a festival brand?
- Is merch just about money?

Share...

Learning Objectives

- To apply branding consistently across multiple products
- To create functional and visually appropriate merchandise

Clear Product Sketch

Each design must include:

- ✓ Clear product sketch (front view or simple 3D)
- ✓ Logo / brand name
- ✓ Colour scheme
- ✓ Typography
- ✓ Brand Identity

Colour Scheme

Typography

Your brand identity (visually)

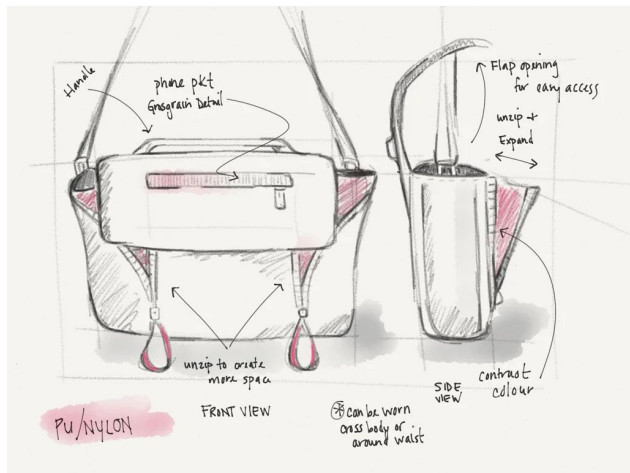

Tip: Keep your badge background design larger than the template so that it is a neater finish when pressed.

Event Name & Logo

Learning Objectives

- To apply branding consistently across multiple products
- To create functional and visually appropriate merchandise

Stretch:

Design a sticker pack for your festival as an extra merchandise item or a free gift.

Assessment Checkpoint

Annotation:

- ☐ **Aesthetics**, colours, style, vibe
- ☐ **Customer**, who it is for
- ☐ **Cost**, price to manufacturer (approx), price to sell
- ☐ **Function**, what it does / how it is used
- ☐ **Materials**, what it is made from

	Meeting	Mastering	Exceeding
Merch Design	- I have designed a clear piece of merchandise - My design includes logo, colour, and product detail - My design matches my festival theme	- My design clearly targets a specific audience - My branding is consistent and well applied - My annotations explain my design decisions	- My design is creative and visually strong - My branding is highly consistent across products - My annotations justify decisions using DT vocabulary

- Record a clear step-by-step process - including photos - for manufacturing a product
- Explain decisions, problems, and improvements during making
- Use subject specific vocabulary to describe tools, materials, and processes

Big Picture: Why do designers record their making process, not just the final product?

Think, Pair, Share...

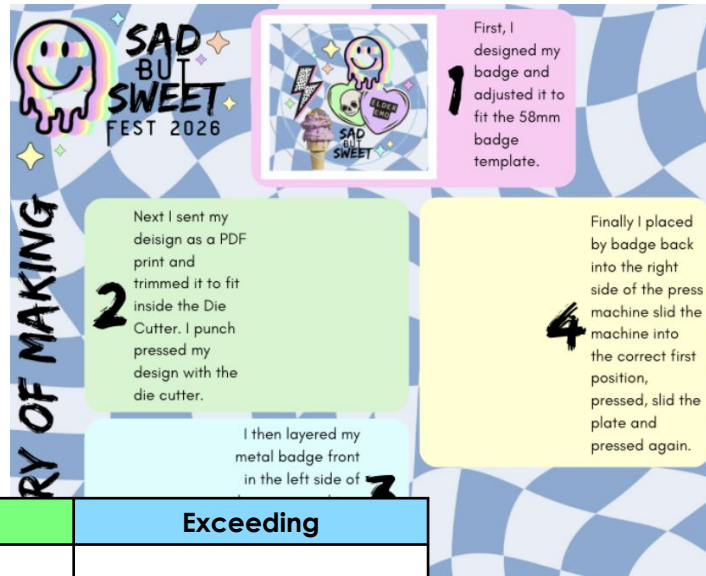

Why is it important to
record how
something is made?

- Record a clear step-by-step process - including photos - for manufacturing a product
- Explain decisions, problems, and improvements during making
- Use subject specific vocabulary to describe tools, materials, and processes

Step-by-step process

For each step, you must include:

- ☐ What I did
- ☐ Tools/materials used
- ☐ A problem or check (if relevant)
- ☐ Outcome/result
- ☐ Photos or sketches of the step

Help Hub:

Key Words:

- Manufacture
- Process
- Accuracy
- Quality control
- Heat press
- Alignment
- Transfer
- Pressure

Sentence starters:

- First, I...*
- Next, I used...*
- A problem I had was...*
- To improve this, I would...*

	Meeting	Mastering	Exceeding
Diary of Making	- I have recorded clear steps in order - I have described what I did - I have included tools and materials	- I explain problems and how I solved them - I use DT vocabulary accurately - I include clear reflection on my work	- My diary is detailed, clear, and well structured - I explain how to improve the process - I include quality control and independent thinking

1

First, I designed my badge and adjusted it to fit the 58mm badge template.

2

Next I sent my design as a PDF print and trimmed it to fit inside the Die Cutter. I punch pressed my design with the die cutter.

3

I then layered my metal badge front in the left side of the press machine, with my design and a piece of acetate on top.

4

Finally I placed my badge back into the right side of the press machine slid the machine into the correct first position, pressed, slid the plate and pressed again.

Learning Objectives

- I can identify my strengths and areas for development by analysing my common assessment results.
- I can use the GROW reflection model to set clear, achievable next steps for improving my Design & Technology skills.

TASK: Use GREEN PEN to peer assess answers using the example assessment.

CHALLENGE!!

Review your work and develop your answers using pink or purple pen.

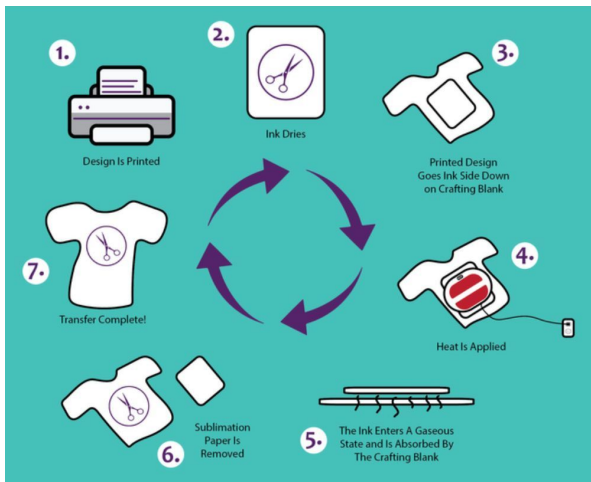

The BIG Picture... WHY?

Through **Guided Reflection Of Work...**

- I identify what I did well, where I lost marks, and why.
- I analyse my strengths and areas for development rather than just looking at my grade.
- I consider practical ways to improve my design skills and presentation.
- GROW helps me become a more independent, reflective designer who actively develops their skills.

Final Packaging Construction & Sublimation Printing Process

- Understand the sublimation printing process and how it is used to manufacture a final product.
- Work accurately and manage time effectively to complete each stage of the process successfully.
- Use tools and equipment safely, following all health and safety guidelines.

Before You Start

- ☐ Tie back long hair
- ☐ Roll up sleeves / remove loose items
- ☐ Wear heat-resistant gloves
- ☐ Listen carefully, this is a **high heat process**
- ☐ Do not touch the heat press unless told

- The machine is **VERY HOT**
- Do NOT touch metal
- Only touch the handle if told
- Use gloves
- Wait for teacher
- Move slowly

Sublimation Printing – Health & Safety Guide

Step-by-Step Process

1. Prepare Your Design

- Check your print is the correct size and orientation
- Position your design carefully
- Secure with heat tape

⚠ Safety:

- Keep workspace tidy
- Make sure paper is flat (no overlaps)

2. Prepare the Heat Press (Teacher)

- Teacher sets temperature and time (approx. **180–200°C**)
- Only approach the machine when instructed

⚠ DANGER: VERY HOT SURFACES

3. Place the Mug in the Press

- Carefully place the item into the heat press
- Ensure it is positioned correctly

⚠ Safety:

- Only hold the **handle** if instructed
- Keep fingers away from the heated metal

4. Close and Start the Press

- Close the press firmly
- Start the timer

⚠ Safety:

- Do NOT open the press
- Do NOT touch during heating
- Stay focused — no distractions

5. Remove the Item

- The item will be **EXTREMELY HOT**
- Use **heat gloves** or teacher assistance

⚠ Safety:

- Do NOT touch the surface
- Place immediately on a **heatproof mat**

6. Remove the Sublimation Paper

- Carefully peel away the paper

⚠ Safety:

- Hot steam may be released
- Keep hands away from printed surface

7. Cooling

- Leave the product to cool completely

⚠ Safety:

- Do NOT carry or touch until safe
- Assume it is still hot

Final Packaging Construction & Sublimation Printing Process

- Understand the sublimation printing process and how it is used to manufacture a final product.
- Work accurately and manage time effectively to complete each stage of the process successfully.
- Use tools and equipment safely, following all health and safety guidelines.

Your T-shirt/Tote bag design should be...

Created by you, either through drawing or photobashing

Include the festival logo and name

Use your festival colours

Use design elements inspired by your festival

Learning Objectives

- I can identify my strengths and areas for development by analysing my common assessment results.
- I can use the GROW reflection model to set clear, achievable next steps for improving my Design & Technology skills.

Section 1 - Core Knowledge

1. ACCESSFM & User Design

(a) State one design consideration for each:

- Aesthetics
- Function
- Environment
- Customer

Aesthetics - consider the colour ①

Function - consider how it works ①

Environment - consider its recyclability ①

Customer - consider target age group ①

(4 marks)

(b) Explain why understanding the target user is important when designing packaging.

Understanding the user helps designers create packaging that is ① suitable, attractive & functional for that group. ①

(2 marks)

2. Materials & Sustainability

(a) Name two materials suitable for packaging.

cardboard ①

light weight plastic ①

(2 marks)

(b) Explain one environmental advantage of using recyclable packaging.

Recyclable packaging ① reduces waste and helps protect the environment ①

(2 marks)

3. Graphic Communication

(a) What is the purpose of 3D drawing?

3D drawings help to show what a product ① will look like before it is ① made.

(2 marks)

(b) Identify two features of a packaging net.

Tab, fold lines, faces/panels, worth ① each.

(2 marks)

(c) Explain why accurate dimensions are important when designing a net.

Accurate dimensions ensure the packaging ① fits the product and ① assembles correctly

(2 marks)

Continue on the next page

Learning Objectives

- I can identify my strengths and areas for development by analysing my common assessment results.
- I can use the GROW reflection model to set clear, achievable next steps for improving my Design & Technology skills.

A rectangular cardboard box is shown.

- Length: 120 mm
- Width: 60 mm
- Height: 80 mm

Tasks:

(a) Draw a **net of the box (1:1 scale)**, including:

- All faces
- Tabs
- Fold lines (dashed)

(b) Add a **window feature** to the front panel.

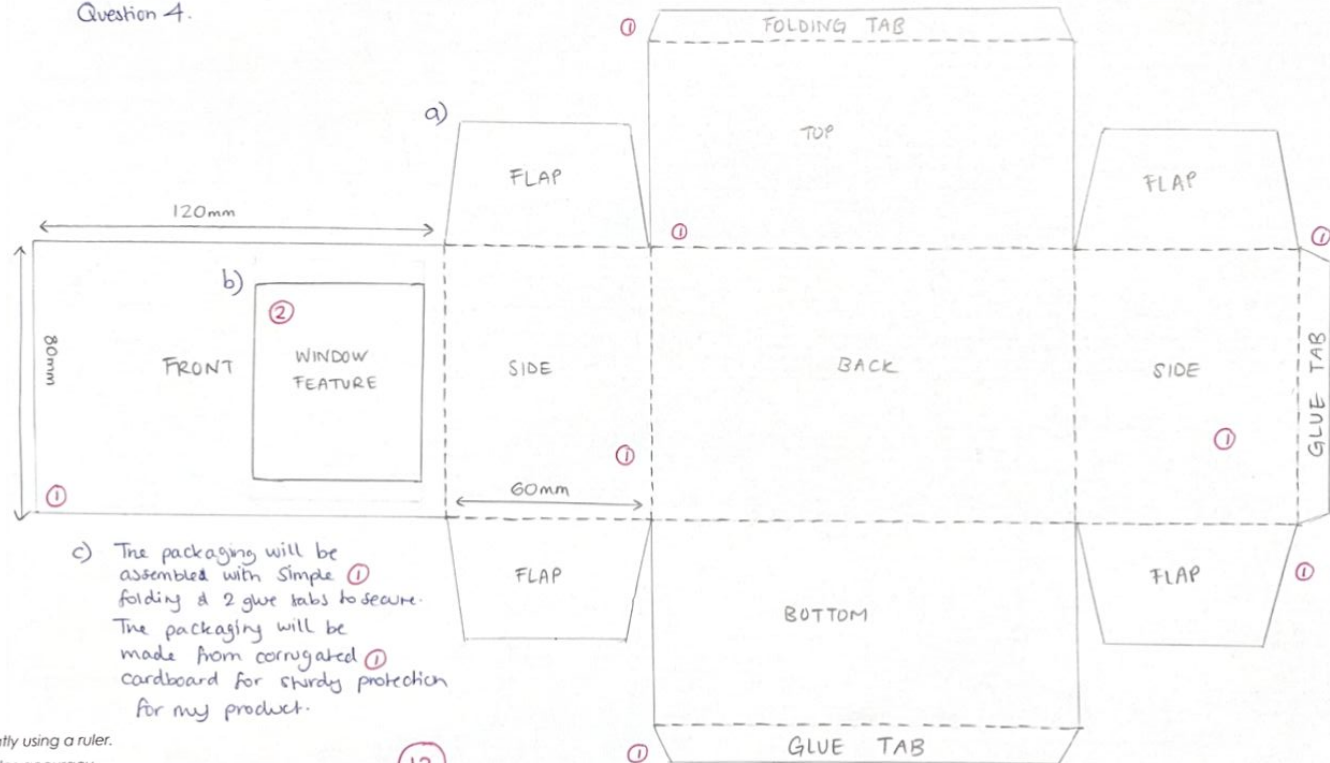

(c) Annotate two features explaining:

- How the packaging is assembled
- How it protects the product

Draw neatly using a ruler.

- Helps accuracy
- Helps marking

Question 4.

Learning Objectives

- I can identify my strengths and areas for development by analysing my common assessment results.
- I can use the GROW reflection model to set clear, achievable next steps for improving my Design & Technology skills.

Section 2 - Design Task

Design Brief

A company is launching a new flavoured snack product for teenagers.

You must design a **cardboard packaging solution** that:

- Protects the product
- Clearly displays branding
- Is easy to open and reseal
- Appeals to a teenage target market
- Can be manufactured using a single net

5(a) Functional Requirements

List **four functional requirements** for the packaging.

- ① protects the product
 - ① Easy to open & close.
 - ① Lightweight
 - ① Durable.
 - ① Resealable
 - ① Easy to carry
 - ① Displays branding/product.
- worth ① each.

(4 marks)

5(b) Design Ideas

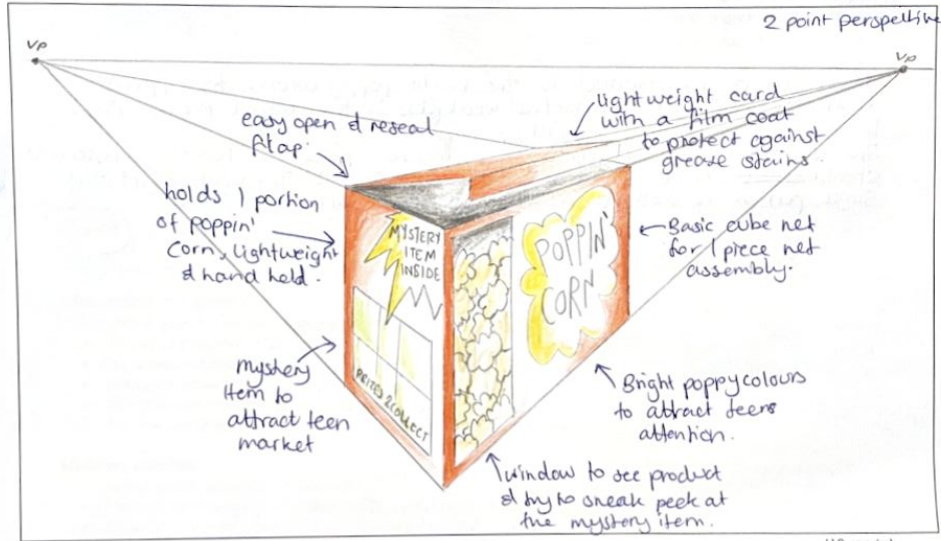

Produce **one packaging** design idea.

You must include:

- 3D sketch (isometric or perspective)
- Indication of structure (how it folds/opens)
- Branding (logo + colour)

Annotation explaining:

- Materials
- Function
- Target user appeal

(10 marks)

6(c) Evaluation

Compare your ~~two~~ ideas.

- Strengths and weaknesses
- Reference to user needs and function
- Justify your final choice

① I strength of my product is the bright poppy colours to appeal to the teen target market. ① weakness is the reseal feature could be more secure for portability. The teens will love collecting the mystery prizes & revealing on socials should create strong buzz for the product. The light weight and single portion is well designed for multiple purchase.

(6 marks)

Learning Objectives

- I can identify my strengths and areas for development by analysing my common assessment results.
- I can use the GROW reflection model to set clear, achievable next steps for improving my Design & Technology skills.

Reflect on your work in **GREEN PEN** by answering **ALL** of the following questions on the back of your paper:

请用绿色笔在试卷背面回答以下所有问题, 对你的作品进行反思:

시험지 뒷면에 아래의 모든 질문에 답하며 초록색 펜으로 자신의 작업을 되돌아보세요:

- Where did I gain the most marks? Why?**

我在哪一部分得分最多? 为什么?

나는 어떤 부분에서 가장 많은 점수를 받았나요? 왜 그런가요?

- Which skills can I practise more often?**

我可以多练习哪些技能?

어떤 기술을 더 자주 연습해야 할까요?

- Where did I lose marks? What was missing or unclear?**

我在哪一部分失分了? 缺少了什么? 哪里不清楚?

나는 어떤 부분에서 점수를 잃었나요? 무엇이 부족했거나 불분명했나요?

- What are the top 2-3 things I will do differently next time?**

下次我会改变或改进的2-3件最重要的事情是什么?

다음번에는 무엇을 2-3가지 다르게 할 것인가요?

- What could I do to improve my design sketches?**

我可以如何改进我的设计草图?

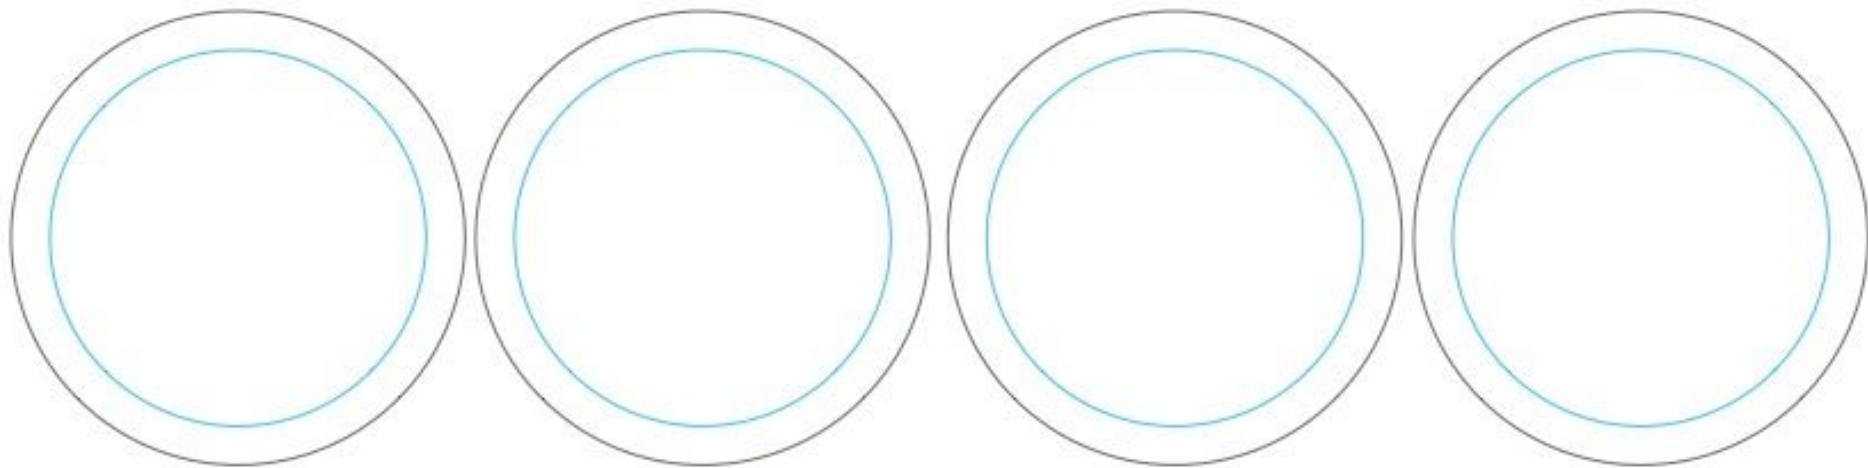

내 디자인 스케치를 어떻게 개선할 수 있을까요?

- What will I change immediately in class?**

我在课堂上可以马上做出哪些改变?

수업 시간에 바로 바꿀 수 있는 것은 무엇인가요?

58mm Badge Template
