Week 7

Sections B and C

Learning Question

How do new counter-melodies in Section B and dynamic shifts in Section C create contrast from our main theme?

Learning Question: How do new counter-melodies in Section B and dynamic shifts in Section C create contrast from our main theme?

SUCCESS CRITERIA

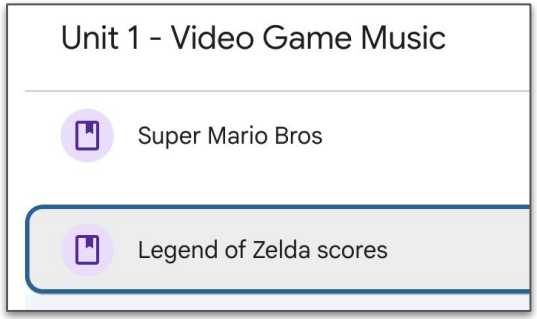

(1) ✅ Meeting	• I can play my allocated part accurately and in time as the ensemble transitions into Sections B and C. • I can execute the dynamic change at Section C.
(2) 🚀 Exceeding	• I can maintain steady pulse through structural transitions while balancing my part's volume against the lead layer in Section B. • I can shape my part expressively across Section C to support the collective dynamic shift.
(3) 👑 Mastering	• I can lead my section's timing and entry across Sections B and C, ensuring clean ensemble alignment and textural contrast. • I can evaluate how the interaction of all instrumental layers in Section B and the dynamic shift in Section C alter the energy of the piece.

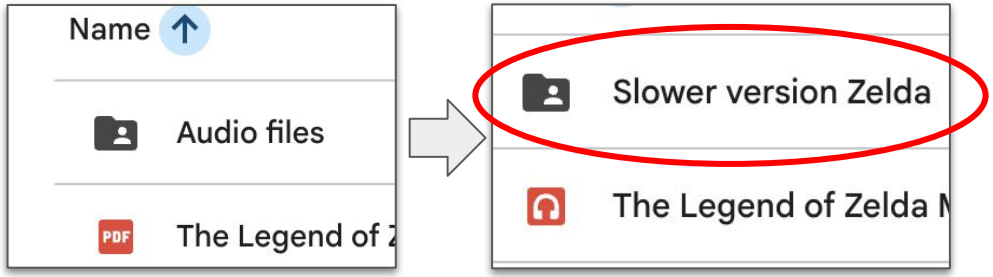

Learning Question: How do new counter-melodies in Section B and dynamic shifts in Section C create contrast from our main theme?

Individual Practice – Bars 13–25

Open the Zelda scores on Google Classroom.

Find your audio file (slower version) and work with people on the same part.

MELODY:PR2/6 **PERCUSSION**:PR5 **COUNTER MELODY**:Classroom **HARMONY**:Classroom **BASS**: Classroom

Learning Question: How do new counter-melodies in Section B and dynamic shifts in Section C create contrast from our main theme?

Warm Up – Balance Check

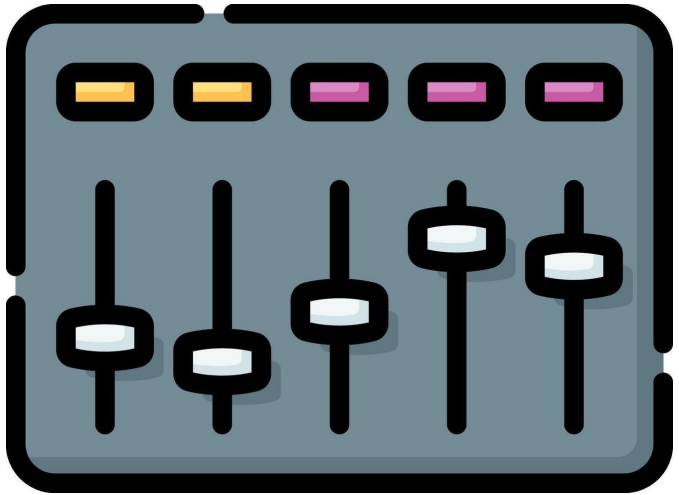

Focus: Play a sustained A Major chord and isolate individual layers.

Bass/Piano/Percussion – Low A

Harmony – C#

Counter Melody – E

Melody – High A

Learning Question: How do new counter-melodies in Section B and dynamic shifts in Section C create contrast from our main theme?

Section B and C (Bars 13–25)

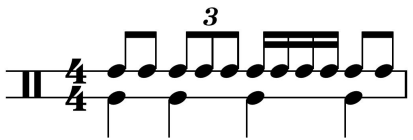

⏱️ **Tempo**: Practice at 80 BPM → Target: 120 BPM

🔊 **Dynamic**: Section B = mf (Balanced) Section C = p (quiet)

🎯 **Key Goal**: Balance background layers so the Section B sub-melody cuts through, then execute the joint dynamic shift at Section C together

Rhythm

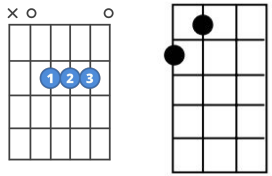

Reminder:

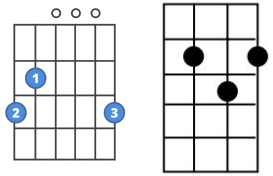

Guitar/Ukulele chords:

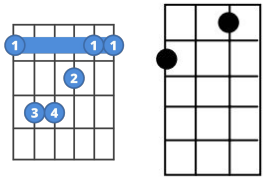

Bar 1: A

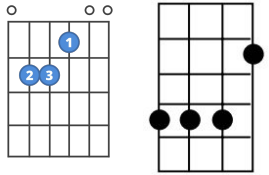

Bar 2: G

Bar 3: F

Bar 4: E

Learning Question: How do new counter-melodies in Section B and dynamic shifts in Section C create contrast from our main theme?

REFLECTION

(1) ✅ Meeting	• Play accurately and in time • Change to piano (quiet) for C section
(2) 🚀 Exceeding	• Maintain steady pulse and balance volume. • Shape your part expressively.
(3) 👑 Mastering	• Lead your section's timing and entry • Evaluate how the change in layer and dynamics affect the energy of the piece.

My Level Today: (Meeting / Exceeding / Mastering)

My Evidence: "In Section [B or C], my part was..."

Next Step: What you need to adjust for next lesson.
