

What do I need to do?

-  Complete **ONE** challenge task **independently** by **Monday 21st September**.
-  Choose **any one** of the **9 challenge tasks** in the following slides.
-  You are welcome to complete **more than one** task. You may work with a friend on extra tasks, but **at least one task must be completed on your own**.

How do I submit it?

-  **Deadline: Monday 21st September**
-  Submit your work on **Google Classroom**, or hand it in to your teacher if you have created a physical resource.

What are we looking for?

- Your work should show **high effort and creativity**. You have **6 weeks** to complete it, so take your time and produce something you are proud of.
- Aim to spend around **30 minutes per week** working on your project.

Why is it important?

- Your teacher will review your work and it will contribute towards your **Term 1 report**.
- You could create something that helps you revise or a resource that could be used by future students. Excellent work may even be displayed or shared with next year's classes!

KS3 GEOGRAPHY

HOMework

Choice Board

USE OF AI NOT PERMITTED

HOMEWORK Choice Board

1. VIRTUAL FIELDWORK

Exploration:
Virtual Fieldwork

Go on Google Earth/
Google Maps/Street view
and explore what you
have been studying in real
life. Screenshot locations
of what you have been
learning and paste it into
a Geography scrapbook
or Google slides
Tip: don't forget to label
and annotate

2. National Geographic

Creative and
consolidates:
Magazine article

Create magazine article
on a section of the topic
we have been learning
about this Term. Use
text, photos, diagrams
and "real life" stories

Tip: It would be great to
link it specifically to the
topic - as a case study

3. TOP TRUMPS

Creative and
consolidates
Top Trumps

Create a set of Top
Trump playing cards
(minimum of 15 in a set
- with at least 5
categories)

7- Country resources
8 - Country economies
9 - Country
development

HOMEWORK Choice Board

4. MOVIE/ANIMATION

Creative - consolidates

Create a short stop motion/animation to demonstrate a section of the learning from the topic

Tip: it can be really good to add words/subtitles to your movie to explain what is happening or use your voice

5. VIDEO 1

Supports + consolidates

Create a short video to teach a Geographical skill or technique that you have learnt and used in the topic

E.g. describing a graph or map (or map skills if used)

Tip: include a model question and answer to demonstrate the skill being used

6. Video 2

Supports + consolidates

Create a short video to teach a section of content/theory that you have learnt in the topic

E.g.

7 - Map Skills

8 - Demographic Transition Model & Population Pyramids

9 - Types of Plate Boundaries and their hazards

Tip: include images and geographical vocabulary

HOMEWORK Choice Board

7. MODEL

Supportive and creative

Create a 3D model or diorama to show a geographical process or landform you have studied this term

Make sure to add an accompanying leaflet to explain your model

Take photos to share with your teacher... better yet, bring it in for display!

8. Gameshow

Supportive and revision

Create a gameshow on the topic or a section of the topic that you have been studying this Term

Find a template of a popular gameshow (Google slides or Canva) - download it and then adapt it to create your own Geography topic specific gameshow to play with classmates

9. Game

Creative and revision

Create a simple game to play with friends, related to the topic you studied

Card games - simple such as Snap, Flash Cards

Boards games - such as snakes and ladders

Tip : test it on your friends and family

Presentation

- Work should be neat and clearly explained
- Include diagrams, pictures etc
- Handwritten or typed is fine
- Upload your work to **Google Classroom**

Your teacher will check that tasks are completed and may recognise strong work.
